

Completed in 2019, Glenmore Central is built over 5 stories and is home to 105 condominiums. The floor plans range from one-bedrooms, one-bedroom plus den, to two bedrooms. With its primary focus on community, Glenmore Central is home to numerous common amenities. For those looking to forego vehicles, the building is bike-friendly with racks at the end of each parking stall and storage possible inside the secure bike room. Additionally, dedicated OGO Car Share Co-op vehicles are on-site for those wanting to use them. The building is also home to a pet washing station, shared garden plots, a rooftop patio, a bookable common space, and a guest suite.

Glenmore is a special place. It's quiet and friendly, but so close to everything. This is your chance to settle in a growing community, in the new heart of Kelowna. Welcome home.
