Old-world exteriors

Timeless beauty that grew from the Arts and Crafts movement in Britain during the late 19th Century makes its way to Holloway. Close your eyes and imagine pitched roofs with front porches, covered entries, and shutters. These architectural details never get old.

New-world interiors

Picture early mornings on a low-maintenance patio or deck, where you sip coffee and wave friendly hellos to neighbours. Picture long days that end with a bubbly bath in a luxurious soaker tub. Happiness doesn't stop there– private garages mean there's never a shortage of space for projects– or gear.
