THE RESIDENCES

Expertly crafted. Effortlessly sophisticated.

ROWE marks the first collaboration between Bosa Properties and renowned interiors firm Ste. Marie. Our shared passion for beautiful, thoughtful design inspired and informed every unique detail at ROWE. The result: Distinctive, well-appointed interiors that are truly in a class of their own.

THE DETAILS

Every detail and design feature at ROWE was considered through the lens of both form and function, to ensure an enhanced living experience day in and day out.

The homes feature a tactile mix of materials—brick, metal, and wood—and elements such as latticework that add dimension to the facade. Pathways are lined with perfectly placed greenery to create privacy for each home, while triple-pane windows ensure the sounds of the city are kept at bay. For the interiors, contrasting materials such as wood-batten accents, herringbone floors and smoked mirrors create layers of texture.

Dark

Bold and dramatic, this contemporary palette uses high-contrast materials such as herringbone floors, polished Dekton countertops and backsplashes, and graphite kitchen cabinetry.

Light

With an emphasis on natural tones, the light palette makes use of close-grained wood and stone veining to create texture. Dark accents add contrast for a look that is both opulent and inviting.
