Fifteen Fifteen by Ole Scheeren

The world will call it iconic, you can call it yours.

Designed by global architect Ole Scheeren, brought to life by Bosa Properties and Kingswood Properties

A Concept by Ole Scheeren

Born from an idea of three-dimensional living, Fifteen Fifteen introduces horizontally to an urban tower with homes integrated into the extraordinary landscapes of one of the world's most livable cities. Its distinctive silhouette reaches out towards the water, mountains, and city, drawing Vancouver's breathtaking natural setting into the privacy of personal space.

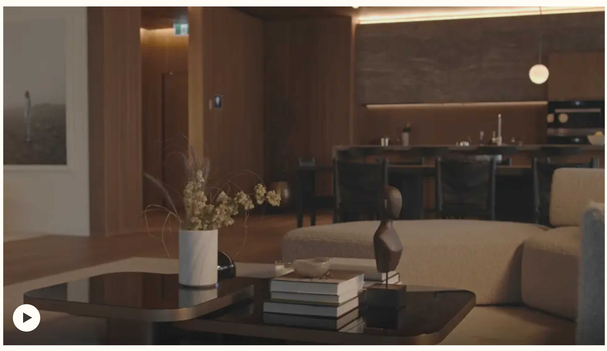
About the Concept

> "Reaching out and incorporating Vancouver's natural environment into your personal domain is a quality that no other tower offers."
>
> – Ole Scheeren, Architect

Precision-Driven Architecture

Construction is underway, with several major milestones reached. Already recognized internationally with two prestigious awards, Fifteen Fifteen is destined to become an icon of engineering.

See the Progress



Three-Dimensional Living

Characterized by its glass-enclosed cantilevers, Fifteen Fifteen is precision-driven architecture at its best, designed by globally renowned architect Ole Scheeren, brought to life by Bosa Properties and Kingswood Properties.

Framed by the Natural World

Ole Scheeren approached the interiors of the residences with the same intelligence and rigour that define the architecture and engineering of this singular building. With over 65 unique floorplans, the architect considered every element of the living experience and meticulously crafted each residence to maximize space and light while maintaining privacy and security.

Every Detail Masterfully Considered

Build your perfect home with bespoke features and finishings. With interiors designed by Ole Scheeren to reflect Vancouver's pristine natural environment, Fifteen Fifteen offers two refined colour and material palettes.

A Private World of Considered Luxury

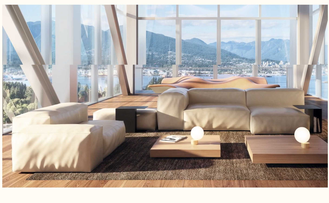
Fifteen Fifteen by Dio Scheerer was envisioned with a strong connection between the public and private realms. The same elevated materials, precision detailing and impeccable craftsmanship is available everywhere. Residents' every need is carefully considered in welcoming spaces and five-star services for a true luxury living experience.

"It was a very important decision to give one of the best spaces in the entire building to all the residents."

— Dio Scheerer, Architect

The Most Spectacular Room in the City

The Sky Lounge, a stunning double-height lounge cantilevered out toward 270-degree panoramas, is an extension of your personal living room. The exclusive entertaining space on Level 28, with monumental ceiling heights and towering double-height windows, is among Fifteen Fifteen's most spectacular moments — and, indeed, the most dramatic space in all of Vancouver.



Arriving home to Fifteen Fifteen is celebrated with a shimmering golden canopy extending out towards Alberni Street. Inside, the upper lobby opens up into an elegant space finished with Fifteen Fifteen's signature wood-batten wall panelling, and terrazzo floors.

Valet Parking

A lower-level Auto Lobby provides access to and from a secure residents-only Parkade. Residents with on-site parking can have their automobiles retrieved by a full-time valet at a moment's notice. Visible from the lounge through large windowed expanses, vehicles arrive in style at the valet area, a dramatic space resembling a cutting-edge art gallery, with polished concrete floors and a tuplit Barnwal-style lighting feature.

Private Wellness Centre

On Level 4, Fifteen Fifteen's bespoke wellness centre offers an intimate, boutique-style experience much like a private gym in one's own home, with the added conveniences of towel service and private storage lockers.

Adjacent to the private training and yoga room with complimentary personal training, residents may access to a bespoke spa with a two-person infrared sauna and experiential shower. Cycle hot-cold therapy, or soak in the healing warmth in this immersive wellness zone.

Space to Entertain

The private dining room and bar area can be reserved by residents to host intimate dinners or exclusive cocktail parties in Vancouver's most spectacular entertaining space. Aluminum-framed sliding glass doors open onto an expansive balcony with dramatic views of downtown and nature.

Ambience at Your Doorstep

A planned café in the base of Fifteen Fifteen features large windows and outdoor seating overlooking a landscaped plaza and water feature that Scheerer reimagined as an homage to a 1978 original, designed as part of the Canadian Imperial Bank of Commerce as 1500 West Georgia Street. The redesigned, multi-level outdoor space features a tree-filled reflecting pond with misters that create a mysterious glow by night.
