AC/Cooling System Explanation at Olympic Village; "Capillary Tube Mat System" – it's new innovative radiant technology - it's a mesh Polypropylene plastic tube water system with pipes 1-Rennie Marketing Systems cm in diameter. The mesh system is imbedded into the ceiling, In the suite you can either turn the switch on to heat or cool - there are 3 zones or thermostats in each unit. There are no vents. The access panel is in the storage room of most suites. The system is very energy efficient and is managed by Interpro, monthly bills for a 1000 sf suite are \$75/mo, electricity is \$30/mo, and Strata fees are \$770/mo (Hot water and gas included) On each rooms thermostat there are indicators - when the red light is on - the system is working, when the green light is on, it's not working. The thermostats can either switch to "Heat or Cool"

Location

Neighbourhood & Walkability — False Creek

The south shore of False Creek has had quite a diverse history of land uses since its founding. South False Creek went from being an industrial park, in the late 1800s and early 1900s, to being the populous residential area that it is today. The north shore of False Creek, on the downtown peninsula, has undergone multiple stages of development since its purchase by the province from the Canadian Pacific Railway in the early 1980s. Before the BC Cabinet bought the land of Nort...
