

SEASONS

BY THE LAKE

On the terraced slopes of Burnaby's historic Royal Oak area, the new Oaklands community is beginning to emerge. In the tradition of all great neighbourhoods, from Vancouver's Shaughnessy, to West Vancouver's Chartwell, The Oaklands will be the home of choice for those who recognize the extraordinary opportunity to become a pioneer in what will surely become one of Greater Vancouver's premier residential communities.

The crown jewel of the setting – Seasons By The Lake – takes the most prestigious place of all.

Situated on almost eight carefully landscaped acres, and sharing unbroken views over shimmering Deer Lake to the coastal mountains beyond, these fine attached homes by Polygon promise to set a new standard of distinction.

EXCEPTIONAL FEATURES

AN UNPARALLELED SETTING

With its low density and extensive landscaping, private patio areas, gated entry, and security fencing, Seasons By The Lake promises to be a community where peace-of-mind is ensured by thoughtful design. Panoramic views across Deer Lake have been highlighted from virtually every home with large windows and sloped roofs. Raymond Letkeman, the architect of this distinguished community, has selected a traditional Tudor styling reminiscent of Shaughnessy, which employs cedar shingles and bevelled siding with earth tone colours to complement the natural beauty of the terraced property. Yet comfort and convenience have been kept in mind, with main-level living emphasized in many plans. Great care has been taken to enhance privacy, with screens and landscaping between patios.
