

Featuring

A unique heritage design combined with every modern comfort, and that certain quality of something very special. This is Heritage at Cypress... meticulously planned with the discriminating city dweller in mind.

The Cypress Ridge Building and the Cypress Point Building, each containing five units, are Designated Heritage Buildings. The five other buildings have been faultlessly designed to conform to the heritage nature of the project.

Panoramic views, a convenient, congenial neighbourhood and a home to cherish. Heritage at Cypress is all this... and more.

- Superb design, down to the last detail.
- One level or split level plan.
- Spacious patios and balconies, many can be converted to California-style sunrooms.
- Leisure/recreation area: includes meeting rooms, exercise room, whirlpool, sauna, change rooms and showers.
- Security underground parking.
- Security surveillance/enter system.
- Entire project, ~~including each individual suite~~, fully protected by sprinkler systems.
- Storage lockers for each suite, as well as designated bicycle storage space.
- On-site caretaker's suite available for security and protection.

Heritage at Cypress. The envy of many, the discriminating home of a select few.
