THE EVOLUTION OF LYNN VALLEY

Not so long ago, Lynn Valley was home to loggers and lumber mills. A hundred years later, the second growth forests are thriving and Lynn Valley has become known as a pristine escape from the hustle of the mega-city that Metro Vancouver has become.

Today Lynn Valley has become a sought after area for many new home buyers. Mill House represents a new opportunity for home buyers who would love to live in Lynn Valley. But, it also represents the community. It's a thoughtful reflection of life up here. And it sets a new standard in this lush, green oasis.

MARCON. GOOD COMPANY.

When Marcon started business in 1985, it was to build a barn. We saw an opportunity to satisfy a need. Since then, Marcon has helped the dream of home ownership become reality for thousands in BC's Lower Mainland. We did it first as a construction company. Later, we started to develop our own projects.

Today, we continue to build what we develop. Construction knowledge and experience is our foundation and our strength. It makes us very good builders and it makes us better developers. And, if we have done our job to the level that we expect of ourselves, we will never see our home owners – unless they happen to stop by for a coffee.

But, the truth is, we are all human and sometimes things need attention after the fact. That's why we created our in-house Customer Care team. We're proud to say that it's the envy of the industry, and we need just two people to look after the service inquiries and requests despite having built thousands of homes since 1985.
