## community

[community story](#)
[amenities map](#)

Chinatown is where Vancouver's best and brightest choose to live, and where the rest of the city comes to play.

Located on Pender, just steps from Main, Framework offers all of the conveniences of urban living in a charming east Vancouver community that is steeped in history

### explore your new neighbourhood

[view amenities map](#)

You'll find everything you need here, from tennis courts and soccer pitches, to tapas bars and gastropubs. Everywhere you turn there's something or somewhere new to explore

## building

[overview](#) [interiors](#) [floorplans](#)

Framework's design draws inspiration from Chinatown's rich past and vibrant future, mixing contemporary details with historical cues.

Cascading rooftops and strong vertical lines give the illusion of multiple facades, allowing the structure to blend in seamlessly with its surroundings, while advancing the neighbourhood's architectural evolution and propelling the streetscape into the twenty-first century. Gaze up at the building's modern north face, then walk through the heritage doors that greet you and find yourself at home.

Down below, Framework's neighbouring laneways are transformed into welcoming public spaces. Up above, catch a breath of fresh air on your balcony or terrace while enjoying scenic city or mountain views.

# Porte Development

Since 1968, Porte has been serious about real estate— all kinds. We develop, build and manage it, using the Porte Promises as our guide. For us, it is a labour of love that carries a great amount of responsibility.

With this in mind, an integral part of our business is our philanthropic work; long after foundations are poured, we continue to give back to the communities we create.

It is a great privilege to craft communities from the ground up, and it is with this knowledge that we make sure no detail is overlooked. As part of our Porte Promises, "if we haven't delivered to our exacting standards, we go back and 'get it right.'"
