AN APPRECIATION FOR LIVABILITY AND STYLE.

Interiors at Capitol are beautifully appointed by award-winning Portico Design Group, who curated two designer colour palettes for you to select from. There is more to the homes than looks – they are spacious and functional too.

Layouts are efficient and dynamic, with sweeping stretches of space indoors and outdoors. Homes accommodate large furniture pieces and provide smart storage solutions. Even the bathrooms are spacious with oversized shower stalls or deep soaker tubs.

AMENITIES THAT DEFINE A LIFESTYLE.

The collection of amenities at Capitol quench your desire for meaningful activity. An indoor social lounge complements a rooftop terrace, offering lots of options for interaction. Sculpt your mind and body at the fitness centre and outdoor exercise area. There is even space to create in the garden plots or workshop.
