GREEN INITIATIVES

- Breathe easier: Improved indoor air quality with low VOC paints and flooring throughout
- Smart location: a pedestrian-friendly community with easy access to transit; efficient site-planning for compact housing; and a diverse range of housing/floor plan types
- Water conservation: low-flow toilets, shower heads and faucet aerators, as well as drought-tolerant landscaping
- Energy conservation: high-efficiency domestic hot water, heating and electric cooling systems; energy-efficient common area lighting; Energy Star® windows and appliances, including refrigerator, dishwasher and clothes washer
- Emissions reduction: pre-wired power to select parking stall locations in the underground parkade to accommodate electric vehicle charging
- Recycling program: recycling facilities for residents; use of recycled materials in construction; demolition material and up to 75% of construction waste recycled
- Extra green efforts: native plantings to reduce the need for pesticides and fertilizers; erosion control and vegetation safeguards; soil control and bulk excavating to reduce site disturbance; and environmental workshops with tradespeople and suppliers
