STATELY HERITAGE EXTERIORS

- Heritage architecture with three distinct original colour schemes is restored in consonance with the classic Arts and Crafts style of the early 1900's
- Enveloped in heritage-painted shingles, stucco, and board and batten, complemented by accent trims and original granite stone
- Significant heritage features are mindfully restored, including stained glass windows, accent knee brackets, gabled roof lines, decorative dormers, entry columns, bay features, wood windows, chimney caps, brick, and front entrance solid wood doors
- Infill buildings take inspiration from their heritage muse and landscaped paths traverse the private outdoor spaces, accentuating the architectural features while contributing to a community experience

A SOLID FOUNDATION

- While the exterior façade receives restoration, the essential foundation and structural components of the homes are entirely new and built to modern standards; as well, entirely new plumbing, electrical, and fire protection mechanisms are introduced

- Bronze patina entry door set in flat black finish
- 7 1/2” White Oak engineered floors in Trestle (Burrard) or Drawbridge (Granville)
- True to the Arts and Crafts movement, mouldings throughout the home include coved crown mouldings, with detailed entablatures, 7 1/4” baseboards, and substantial window and door casings
