GREEN INITIATIVES

- Forced air heat and cooling
- Improved indoor air quality thanks to low VOC paints and flooring throughout
- **Central Location:** pedestrian-friendly community with easy access to transit
- Water conservation: low-flow toilets, showerheads and faucet aerators, as well as drought-tolerant landscaping
- Energy conservation: domestic hot water, energy-efficient common area lighting; Energy Star® windows, dishwasher and clothes washer
- Emissions reduction: pre-wired power to select parking stall locations in the underground parkade for Level 1 electric vehicle charging
- Recycling program: recycling facilities for residents; recycled materials used in construction; demolition material and up to 70% of construction waste recycled
- Extra-green efforts: native plantings to reduce the need for pesticides and fertilizers; erosion control and vegetation safeguards; soil control and bulk excavating to reduce site disturbance
