Building

A Design Perfectly Complemented by Nature

Rhodo's innovative design pairs high-quality materials and finishes that reflect the west coast's natural surroundings – with striking architectural details by award-winning Shape Architecture.

Cedar siding, glass, and metal accents create a timeless and cohesive balance with nature, while an intelligent site design maximizes sweeping Olympic Mountain and ocean views to the south, and lush park views to the west.

Interiors

Form and Function Collaborate

The homes at Rhodo represent nearly two decades of experience creating award-winning custom homes in Victoria, with thoughtful interiors that consider how you live today and in the future.

From the details you see; like chef-inspired kitchens with Bosch appliances, generous storage and built-ins, and expansive patios terraces – to those you don't, like gas cooking and radiant in-floor heating – the homes at Rhodo exude form and function to create a place you'll love immediately, and continue to love for years to come.
