

flyover video ▶

architecturally  
unique; maritime  
industrial meets  
village heritage

There's a rustic sophistication to The Roderick.  
Clean modern lines contrast nicely with the  
heritage facades. The interior courtyard is beautifully  
landscaped with a pergola, raised planters  
and river rock, and there's an outdoor communal  
gathering space for socializing with neighbours.

wonderfully  
spacious,  
smartly  
designed  
apartment  
residences

The Roderick apartment residences offer the best of both worlds:  
the luxury of space and the convenience of single-level living. Two  
bedroom plus den and 3 bedroom floor plans range up to 2,550 square  
feet, and every residence has either a rooftop deck or patio terrace –  
some have both!

## rooftop decks offer expansive views

Setting the backdrop for everyday life are views that span  
from the North Shore mountains to Vancouver Island to Mount Baker,  
and embrace the picturesque riverfront village at your doorstep.
